The 4-bedroom cottage is ready for occupancy, allowing the new buyer to live the Casteel Creek lifestyle immediately. The Yakely Estate also offers various beautiful building sites for the new owner. Enjoy the existing cottage, increase the size with an addition, or build a new home on West Lake Creek or build on the other side of the estate with expansive views of Red & White Mountain.

RIDGE HOUSE

The Ridge House at Casteel Creek is a 4-bedroom- and 5-bathroom single-family home offering the Vail Valley's most spectacular views. Appropriately named, the home is positioned at the pinnacle of the Casteel Creek 457-acre Casteel Creek property. The vantage point provides unobstructed south-facing views of the Sawatch Range that feel so close you could reach and touch the New York Mountain, Finnegan's Peak, and the Gore Range. The 37+ acres and resource zoning provides the ability to have a primary residence of virtually any size, a guest or caretaker home up to 1,800 square feet, and a variety of additional buildings/barns. The Buyer has the option of purchasing the furniture for added convenience, allowing the new owners to immediately start discovering all of the adventures and amenities that Casteel Creek has to offer.

CONSERVATION TRUST | NOT IN MLS

In no small way, Conservation Trust is a distillation of everything that makes Casteel Creek like nowhere else. West Lake Creek runs through the middle of the land. In some places, it gently gurgles through open meadows and forests. In others, the creek softly echoes against the walls of a small canyon and rocky outcroppings. Conservation Trust features a 3-acre building site with unbelievable panoramic views sweeping the Sawatch and Gore Range Mountains. This exquisite piece of Colorado has an extensive trail system with a bridge and scenic overlooks that elevate this marvel's natural wonder. This property allows a residence of up to 7,500 square feet, not including the basement area.

BEAR TRAP

Bear Trap is a very private location within Casteel Creek and has breathtaking views that make it hard to imagine anyone looking down to discover the weathered, wooden bear trap for which this homestead is named. The homesite's ridge line is rich with building sites offering a variety of stunning panoramas. To the east, Vail's iconic Gore Range. On the northern horizon the Red and White Mountains. And towards the southeast, Finnegan Peak pierces the sky. Build a primary residence of virtually any size, a guest residence or caretaker residence of up to 1,800 square feet as well as a variety of other buildings you are entitled to build as a matter of right when you have a parcel of this size and zoning. Lower-level sites feature the quiet serenity of rolling meadow views, while abundant Aspen forests add to the homesite's enchanting power.

BEAR CAMP | NOT ON MLS

In the early 1970s, one of the first members of the storied Vail Ski Patrol recognized the wonder of this particular piece of land. He built a small, rustic trail shelter cabin at the crest of a ridge to take advantage of cinematic vistas. Looking northwest, Castle Peak rises, while to the north, the Red and White Mountains frame the horizon. In addition to arresting panoramas, Bear Camp also features numerous trails, perfect for various year-round activities, and a modern cabin, ideal for use during the construction of your dream home.

GRAHAM'S CABIN

Local lore has it that, in the 1940s, a prominent landowner hid her lover in a cabin on the property. Walking the homesite, you can see why. Graham's Cabin is delightfully secluded and boasts a variety of building sites. Sites at higher elevations offer stunning views of Vail's iconic Gore Range to the East and the Red & White Mountains to the North. Despite expansive views the extensive Aspen transform Graham's Cabin into a wondrous palette of oranges and golds in the fall. With a shorter driveway than most other homesites in Casteel Creek and easy access to utilities nearby, this estate homesite is poised for a Buyer that is ready to get moving on their Casteel dream home. This location is conveniently linked to the trail system, allowing for ideal accessibility to the Coyote Lodge to utilize jointly owned facilities seamlessly.

LOWER MEADOW

Lower Meadow was once part of the Pilgrim sheep ranch. That heritage can be seen and felt in the homesite's lush, large, open meadows dotted with mature stands of Aspen, Cottonwood, and Evergreen and with views of the Red and White Mountains. In fall, those forests offer an ever-changing tapestry of yellows, golds, and reds. Given its gentle, flat topography, Lower Meadow is rich with accessible building sites and perfect for those wanting an equestrian component. This is likely one of the easiest estate homesites to build within Casteel Creek, with electricity close by and the possibility to capitalize on a short driveway and an ideal layout. The zoning entitles you to build more than just a home when you have a parcel of this size and zoning. Build a primary residence of virtually any size, an additional guest residence or caretaker residence up to 1,800 square feet, as well as a variety of other buildings such as a horse barn or a toy barn (or both) for whatever your heart desires.

EAGLE MEADOW - Additionally Offered Outside Of Casteel Creek HOA

Many years ago, a country road ran through this homesite. In its place is a stunning return to nature, featuring broad, open meadows bordered by extensive Aspen forests. In fall, those forests reward the eye with rich textures of color. No matter the season, Eagle Meadow's acres create a true feeling of majestic serenity. As an added bonus, horse lovers will find their happy place on the flat meadow, which offers a particularly perfect setting for riding.
